“The organization provides instructional athletics in the following areas: football, cheerleading, boys and girls basketball, wrestling and girls field hockey.

The purpose for the organization is to combat juvenile delinquency and neglect of the youth of our community by providing organized programs for the youth to participate in such as football, cheerleading, boys and girls basketball wrestling and girls field hockey; to teach the youth sportsmanship, to be courteous, to be physically fit, to be active, to have proper character and to show proper respect and welfare for the community, etc.

The organization will hold clinics and/or instructions and practice sessions to assist in the education and development of youth of the community and will use the facilities of local community playgrounds such as the Norther Lehigh School District, Slatington Borough recreational facilities as well as Washington Township parks and recreational facilities and the like, etc.

The organization supports public schools sports activities by assisting in learning and training. The programs keep youth involved and active in a positive way to combat juvenile delinquency particularly for children of parents receiving HUS housing assistance and other governmental programs, many of which children live with single parents.

The close relationship of the local public school and the organization has been of great benefit to the your of the community. “

Please provide feedback at next meeting.
